Professional Summary

Front end developer with 2.7 years of hands-on experience in software development. Seeking to leverage my skills and expertise in a dynamic environment where I can contribute to impactful projects, further develop my technical abilities, and continue to grow professionally.

Professional Experience

Senior Software Engineer - Spectraforce Technologies   Apr 2023 - Present

Project : InTime

Contributed to the frontend development of a comprehensive payroll management system using React JS and the AntD library. Specialized in designing intuitive user interfaces, particularly focusing on grid layouts, file uploads, and dynamic rendering functionalities. Played a pivotal role in leading end-to-end development efforts, ensuring seamless integration with backend services and real-time payroll handling. Leveraged React JS, Redux, and AntD components to deliver a user-friendly experience while adhering to project specifications. Collaborated within an agile environment to deliver impactful frontend solutions, aligning closely with backend processes and meeting project milestones efficiently.

Software Engineer - Spectraforce Technologies   Nov 2021 - Apr 2023

Project : InTime

Led the frontend development of a robust Payroll Application utilizing React JS and the AntD library. Designed and integrated intuitive frontend views and interfaces, ensuring seamless interaction with backend functionalities. Leveraged modern frontend architectures including Redux for state management and AntD components for efficient UI design. Collaborated closely with backend developers, ultimately reducing manual effort and streamlining payroll tasks.

Technical Skills

Programming Languages : Javascript

FrameWorks/Libraries/Tools/IDE's :

Frontend : ReactJs, Redux, AntD, Html, Css, Bootstrap
Backend : Rest Api
Database : MySql, MongoDB
Version Controls : Git, Github
Tools & IDE's : VS Code, JIRA, Workbench.

Overview :

Frontend Developer
Agile Development
Clean Code
Responsive Design

Certifications & Awards

- Honored with the **Applause Award** for my proficiency in technologies and integrating innovative solutions, leading to enhanced application performance.
- Certified React frontend developer from Edureka, skilled in building dynamic and responsive user interfaces. Certificate Link

Education

Rajiv Gandhi University of Knowledge Technologies, RK Valley   Kadapa, India

Bachelor of Technology in ECE, Secured an aggregate of 8.0 CGPA   Aug 2017 - Aug 2021
